

## Features

- 12-inch / 305mm durable aluminum cone woofer
- Bandpass subwoofer system for outdoor burial
- IP67 rating on the underground enclosure; IP43 rating on the above-ground canopy
- 6-Ohm or 70V operation with 70 Volt external transformer with selectable power taps
- Composite housing with aluminum canopy and polymer port tube stack

## Specifications

Low Frequency Drive Size and Material	12" Anodized Aluminum Cone Subwoofer
High Frequency Driver Size and Material	N/A
Recommended Amplifier Power	250W RMS
70V Transformer Taps	31.75W, 62.5W, 125W, 250W
Voltage	70V
Rated Impedance	6 Ohm without transformer
Loudspeaker Sensitivity	86dB (2.83V @1M) without transformer
Frequency Response	25Hz – 100Hz @-3dB
Crossover Frequency	N/A
Dimension Details	53.3cm (20.77") enclosure length 88.7cm (35") total length including enclosure, elbow, port and hood 45.5cm (18") enclosure diameter 50cm (19.7") enclosure height with feet 87.8cm (34.57") total height including enclosure, port and hood
Dimension Totals	Length 88.7cm (35") Width 45.5cm (18") Height 87.8cm (34.6")
Weight	Speaker and port assembly – 30.1kg (66.4 lbs) Rock Transformer – 3.7kg (8.2lb)
